The Gobbler, or wild turkey , is the official mascot of the CNDFSGM, and also the namesake of our proposal for a local strategic philosophy, GOBLER, or "Guerrilla Organizing Block-by-Block for Local Ethical Revolution", outlined below. Please read it, as well as our *global* strategy proposal, GOBLIN, "Global Organization for Building Liberated Intentional Networks", also following.

The last page lists examples of some of the historical and contemporary inspiration for this document, along with URLs linking to further information.

If, after reading, you would like to join us in our efforts, please email the address [ [cndfsgm@proton.me](mailto:cndfsgm@proton.me) ] seen above.

We need many different skill sets and levels of commitment - everyone can contribute!

## *Guerrilla Organizing Block-by-Block for Local, Ethical Revolution*

### **Principles:**

- **Guerrilla Resistance:** GOBBLER is, at heart, a set of proposed guidelines for facilitating guerrilla-type resistance, or other direct actions. The “block-by-block” strategy encourages community members to communicate, organize, and operate as local, independent cells, fighting oppression, spreading information, and assisting people in their own neighborhoods, while collaborating with nearby communities as the need arises.
- **Revolutionary Integrity:** Revolutionary acts are grounded in love, solidarity, and a desire for justice and equality everywhere, for everyone. GOBBLER supports any and all necessary revolutionary, anti-colonial or anti-fascist actions. We must uplift and support our neighbors and fellow workers, directly addressing the needs and upholding the values of the community with utmost charity and due

consideration. We can't expect the boot on our necks to also be the hand that feeds; we're in this together! Landlords, cops, and other class traitors are working to keep us dull & distracted. We have to help each other at all costs!

- **Unyielding Support:** We're not all able to commit to direct action, public roles, or active resistance; but it's everyone's job to assist and fortify grassroots movements and those in the community who are already battling for their, and our, liberation! GOBBLER seeks to provide the tools, introductions, and resources needed to bolster existing local efforts, while encouraging thoughtful initiatives- enabling communities to intensify their resistance and achieve greater victories through the contributions of everyone ; a kind neighbor is always a revolutionary hero. We can't give up on each other!
- **Empowering Grassroots:** GOBBLER recognizes the inherent power of local movements, and community leadership. We are committed to reinforcing their strength and capacity to act decisively against systemic injustice. Block by block, neighborhood by neighborhood, we can all create and sustain forward momentum, supporting the front in any way we can, encouraging and enabling organized, aggressive, locally-motivated actions against oppression, whether it's corporate, governmental, or at the hands of racists, fascists, and class traitors such as the local police department, or even all of these groups at once.

## **Goals and Mission:**

All that is basically saying the same thing in different ways, isn't it? That's because it's pretty simple! GOBBLER is dedicated to supporting radical, localized acts of liberation, through block-by-block organizing. Our mission is to empower communities to confront and dismantle systemic oppression with determination

and unity, guided by the principles of neighborliness, autonomy, and equality, inspired by other movements and ideas that work.

## Techniques:

- **Guerrilla Tactics:** Implementing strategic, localized actions to disrupt and challenge systemic oppression.
- **Resource Enhancement:** Providing tools and support to elevate grassroots efforts and expand their reach.
- **Ethical Resistance:** Balancing fierce action with a commitment to justice and values.

*Global Organization for Building Liberated Intentional Networks*

## Principles:

- **Global Revolutionary Solidarity:** GOBLIN calls for a united global front against oppression. We recognize that to challenge global injustices, we need a network of committed, liberated communities. Our mission is to build and strengthen these networks, fostering solidarity and collective action on an international scale.
- **Liberated Networks:** We support the creation of autonomous, self-determined networks that defy centralized control. GOBLIN aims to help communities build liberated, intentional networks that align with their values and revolutionary goals, resisting global systems of oppression.
- **Collaborative Power:** Our focus is on connecting and supporting existing global resistance efforts. GOBLIN should provide a

platform for collaboration, enabling communities to share strategies, resources, and support each other in their struggles for liberation.

- **Empowering Global Resistance:** GOBLIN is committed to amplifying the collective power of global movements. We want to facilitate the connections and resources needed for communities to act decisively and effectively, strengthening their impact in the fight against global injustices.

### **Goals and Mission:**

GOBLIN aims to build and support networks of self-directed communities worldwide. Our mission is to reinforce and connect global resistance efforts, facilitating solidarity and mutual aid to challenge and dismantle global systems of oppression.

### **Techniques:**

- **Network Building:** Creating and enhancing connections between global resistance efforts to strengthen collective action.
- **Collaborative Platforms:** Offering tools for communities to share resources and strategies.
- **Supportive Framework:** Providing the means for communities to coordinate and amplify their revolutionary efforts. \
